

PROSEACURE

The Marine Professionals' Detention and Kidnap for Ransom Insurance

By marine professional we mean an individual or group of marine lawyers, surveyors, engineers, loss adjusters, naval architects, consultants, contractors, or marine superintendents working globally for marine clients in a variety of overseas jurisdictions.

Why do you need ProSEACURE?

The marine professional is frequently instructed to represent their company and/or client's interests in ever increasingly difficult jurisdictions. Incidence of violent crime, extortion and commercially or politically motivated detention are real risks faced by the modern day marine professional. ProSEACURE provides the insured with the peace of mind that the best interests of the company and their partners, consultants or employees are protected from the adverse consequences of such attacks.

The benefits are two fold:

Firstly, the cover provides the insured with direct access to a well drilled emergency response protocol and network of professional negotiators to guide the insured safely through difficult and stressful insured events, the costs of which are unlimited under the terms of the policy.

Secondly, insured events can prove to be very costly, ProSEACURE ensures that case related costs and expenses are met by the insurer subject to policy limits.
